

Please do not allow Sinclair to air their Kerry-bashing ad on public stations. As an American citizen I feel that such a display is not only both cheap and dirty, but totally irrelevant to the presidential race. By allowing corporations like these to influence the airwaves, you are taking away the fundamental rights of each American. Just because some company has the authority on air, doesn't permit them to use it negatively and ignorantly to boast of past actions of presidential candidates, especially this close to election time. If you allow Sinclair to air this ad, you will only be further demolishing any positive image of this nation. Try to be fair to the public for a change. Thank you very much.
